

K-LOVE serves me in my local community by providing uplifting music and commentary any time of the day or night. If K-LOVE were to be removed from my listening area there is no doubt that my quality of life would decrease significantly. This music not only "makes my day", but it encourages me, and everyone else who listens to it, to be better individuals. KLove encourages me to be responsible to myself and others, and reenforces the strong values that make our society what it is. This station not only serves me as an individual, but it is a positive force for the entire listening area.
